The Fight at Coal Creek Continues.

The Miners Make Three Desperate Charges.

Are Repulsed Each Time With Heavy Loss.

Garrison-Business in a Desplorable Condition.

Knockville, Aug. 18.—(Associated Press.) Miners made three attacks on the stockade at Coal Creek today, each being repulsed, the third time with heavy loss, many being killed. The fight was very bloody. Five hundred militia and citizens are carrying forward to reinforce Col. Anderson. The people here are terribly excited and business is suspended.

BOYSCOUTS IS HAPPY.

His Daughter the Bride at a Fashionable London Wedding.

London, Aug. 18.—(Associated Press.) There is no prouder man in London than "Old Man Bonyne," who received, it is remembered, such a thrashing at the hands of Mr. John W. Macfarlane, the "Bonanza King," in San Francisco a year or so ago. Bonyne carries no visible marks of the punishment he then received, but on the contrary smiles his broadest on everybody. Monday his daughter, Miss Louise Bonyne, a very charming girl, was married under circumstances of pomp to Mr. Grenfell Maxwell of Black Watch, a young officer who receives a salary of \$700,000 with his bride. For years the Bonynes were known as the "gatekeepers" in London, and are now counted as fairly on the inside. It was thought at first that a dual alliance was the lowest thing aimed at by the daughter by the ex-broker, but by degrees the grades of marquis, earl, viscount and baron were discussed. Among the observers of the family the actual outcome makes a much prettier and far more romantic story than critical onlookers could have desired. Miss Bonyne marries a handsome soldier, with a fine uniform and light heart, and Princess Christian, the queen's daughter, formerly known as Princess Helena, was seen at the wedding, and Prince Christian dined with the family the evening. The prince is a bald, fat man and fond of good dinners, and among the poorer of "royalties."

WAS SHOWN TO BE FALSE.

A Free Trade Advocate Gets Tripped up on His Misstatements.

Lincoln, Neb., Aug. 18.—(Associated Press.) An incident illustrative of the state of the free trade agitation occurred today on the streets. Several parties indulged in a discussion, and the apostle of free trade produced some tables to show how comparative wages paid in England and America. He argued that while the wages were less on the other side of the ocean the purchasing power of money was much greater, and the English laborer was really as well or better off than the American. He was reminded that meat and bread stuffs were necessarily made dearer there than here, as much of the supply came from this country. He answered by declaring that granulated sugar was only 1 1/2 cents per pound in Liverpool, and he could produce the documents. He was reminded that this was impossible, but still insisted. An English looking workman sitting by had listened to the discussion in silence up to this time. Turning to the free trader he said: "Excuse me, but it is only three weeks since I left Liverpool, and I don't know this about your free trade, but I do know this that the cheapest sugar ever sold in England was 4 1/2 cents per pound; and I know further that the average English laborer considers himself fortunate if he can get four ounces of bacon a day at a cost of 5 cents." The free trader subsided.

Physician Arrested.

San Francisco, Aug. 18.—(Dr. Beal, alias Dr. Havens, and his assistant, Miss Harriet E. Graham, were arrested yesterday charged with malpractice. A few weeks ago Miss Alice Carroll of Petaluma, died at Beale's home from the effects of a criminal operation. Beale then disappeared but was caught today by detectives.

ENORMOUS PROPORTIONS

Being Assumed by the Labor Trouble in Buffalo, New York.

Buffalo, Aug. 18.—(Associated Press.) The sixth day of the switchmen's strike closes with increasing complications. The leaders witnessed the massing of troops with growing determination to meet every move of their opponents. With a counter strike. Fully 2,000 troops will be here by tomorrow, guarding 900 strikers. Railway officials rely upon the presence of the soldiers to permit them to raise the freight blockade with non-union men already engaged. As a counter stroke it is considered very probable that strikers and trainmen on all lines where strikes now prevail be called out. Latest additions to the striking switchmen are ninety men in the nickel plate yards who struck because they were asked to handle boycotted freight. The switchmen upon the entire Vanderbilt system in the vicinity are out on the strike. Leaders claim tonight that the

CLEVELAND'S REPLY.

The Letter He Wrote to the King's Niece Was Purely Personal.

Buzzards Bay, Mass., Aug. 18.—(Associated Press.) Mr. Cleveland was tonight shown his published letter of July 27, written to Mrs. E. A. White, a niece of Col. H. Clay King, which has caused no little comment. The letter was a personal one and Mr. Cleveland was very much surprised to find it had been published and that it had been filed among other documents with Gov. Buchanan. Mr. Cleveland does not deny writing the letter. He said it was a personal one. Mrs. White was a very pathetic one and certainly deserved an answer. Mr. Cleveland reiterates his statement that he "ought not to interfere by applying to the governor for a mitigation of the sentence." Mrs. White's letter which stated the physical condition of her uncle and other circumstances, led Mr. Cleveland to tender his sympathy for her, with the earnest hope that an execution of the death sentence might be avoided.

Gardner Threatened His Wife's Life and Killed Himself.

New York, Aug. 17.—(Associated Press.) Lewis M. Gardner, 45, a carpenter, living at No. 188 Fulton street, Brooklyn, started on a spree two weeks ago. He threatened to kill his wife, and she fled into the street while the storm was at its height. Mrs. Gardner took refuge in the house of her son Lewis. Yesterday she decided to have her husband arrested, and called at the station house, where she was advised to return home. She did so, but couldn't get in. Another later Detective Kelly, went with her to her home, but the doors were locked. Kelly climbed over a transom and found Gardner dead on the floor, with a package of Paris green beside him.

New York, Aug. 17.—(Associated Press.) Charles Pierce, a well known and prosperous young man of Absecon, a village near Pleasantville, N. J., took Miss Lizzie Kelsor out for a buggy ride a few evenings ago. When she returned home she was a very angry young woman. She alleged that Pierce had hugged her without her consent. So she had him arrested, and yesterday he was arraigned before magistrate Lake. The magistrate was considerably nonplussed as to what action he should take. He finally decided to release him, concluding, however, that Charles Pierce, in hugging Lizzie Kelsor without first gaining her consent, had done wrong, although it was hard to designate under what head the crime came. He finally placed Pierce under bonds to keep the peace.

The Rhodes Case at Last Concluded.

A Complete Alibi has Been Proven Says the Court.

Eloquent and Strenuous Effort by the Defense—Frank Cox Makes a Masterly Appeal.

The end has come and the prisoner free in the preliminary examination of John Rhodes. During the past ten days the all-absorbing subject of conversation on the street has been the trial in progress and while the public opinion has been divided on the subject the prevailing opinion, gathered from the citizens last evening, was that the prisoner would be held to await the action of the grand jury, without bail but after a vigorous and well conducted prosecution which was equally well met by the masterly defense, Judge Huson decided to turn the defendant free and consequently John Rhodes walked out in the light of day yesterday evening a free man.

THE WORLD'S RECORD

Beaten on the Chicago Tracks Yesterday.

The Record of two six and one fourth is beaten by a pacer from California.

CHICAGO, Aug. 18.—Another record was splintered at Washington park today—Hal Pointer pacer, starting to beat 2:06 1/4 went a mile, driven by George Goss, in 2:05 1/4. Clipping 3/4 seconds off the record made by Direct, over kite shaped track—Hal Pointer went to a ninety in his race against the record and made the trip practically without a pacer. After the brisk wind had died away Goss brought him out and at second score nodded for word. Abe Lincoln the runner that accompanied Nancy Hanks in her trip yesterday lay three lengths behind him to the quarter which was reached in 31 1/2. The half was reached in 1:02, with runner still away in the rear. At the seven-eighths Frank Stair brought runner up level, Pointer was pacing well within himself and needed no encouragement for coming home well in hand he went under the wire in 2:05 1/4, the world's record for a mile in harness. Hal Pointer is by Tom Hal; dam, Snowhaven; and owned by George Hamilton, of Buffalo.

HEMIED IN BY ICEBERGS.

The British Ship North Has a Series of Narrow Escapes.

LONDON, Aug. 18.—(Associated Press.) The British ship North, Captain Newson, at Sligo, from Portland, Or., reported that on June 11th at 44 deg. S., 37 W., she passed two enormous icebergs, while many were visible ahead. The North sailed with a solid barrier of bergs ranging from twenty to 200 feet in height, while the open water was filled with great quantities of broken ice. About 10 o'clock on the night of June 11th the vessel was entirely surrounded by ice, and it was feared that she would be crushed. But fortunately toward morning the winds changed and enabled her to clear the bergs. She had many marvelous escapes from destruction. The bergs formed a break water fifty miles long resembling a large volcanic island. This report of the north, bears out reports from other vessels from around Cape Horn that the ice drift from the Antarctic ocean this season is unprecedented and that it has reached the most northerly point ever known.

A History of the Pimas.

R. E. L. Robinson is writing a lengthy illustrated article with the Pima Indians as a subject, for the San Francisco Chronicle. This peculiar tribe of people, the original inhabitants of the Gila valley, strange to say, have lived peacefully and been indisturbed by historians and Philologists. Mr. Robinson is making his investigation with the assistance of Henry Morgan, who lived among them for many years, and who is alluded to by Bancroft as "The Hermit of the Gila." The article will appear in an early issue of the Sunday Chronicle and will be of interest, even to Phoenix people who see the Indians every day.
